

CRM-Docker Architecture Deliverables

1) Visual Dependency Graph

- DOT source: 'docs/dependency_graph.dot'
- Rendered image: 'docs/dependency_graph.png'

2) Field Dictionary (CSV)

- File: 'docs/model_field_dictionary.csv'

Columns:

- module
- model_or_inherit
- class_name
- field_name
- field_type
- source_file

3) Notes

- Module dependency edges are generated from each module '__manifest__.py' 'depends'.
- Model links are inferred from model references found in model Python files.
